

Project Documentation: Personal Portfolio Website

1. Overview

This is a **personal portfolio website** designed and developed by and for **Patrick Kariuki**, a **Data Analyst and Web Developer**.

The portfolio serves as a digital resume, showcasing professional skills, certifications, projects, and achievements in a visually appealing and responsive manner.

The project is built using **HTML, CSS, and JavaScript**, and deployed using **GitHub Pages** for free hosting.

2. Objectives

-  Create an **online presence** for professional branding.
-  Provide a **central hub** to showcase projects, skills, and certifications.
-  Ensure the site is **responsive**, accessible across desktop, tablet, and mobile devices.
-  Implement **modern design principles** with animations and transitions.
-  Enable potential employers, clients, and collaborators to **connect easily** via a contact form.

3. Features

- **Home Page** – Hero section with animated background, introduction, and highlights.

- ****About Page**** - Personal story, career journey, and professional summary.

- ****Projects Page**** - Portfolio of completed and ongoing projects with descriptions.

- ****Skills Page**** - Technical and analytical skills presented in ****card-based design****.

- ****Certifications Page**** - Display of completed certifications such as:

- OCI Gen AI
- Google Data Analytics Professional Certificate
- Google Cybersecurity Professional Certificate
- Google Business Intelligence Professional Certificate
- Google Project Management Certificate
- Cisco CyberOps
- ****Contact Page**** - Contact form with input validation (JS) for collecting inquiries.

- ****Responsive Navigation Bar**** - Dropdown menu for small screens with hamburger toggle.
- ****Animations & Transitions**** - Motion background, smooth hover effects, and fade-in sections.

4. Technologies Used

Frontend

- **HTML5** - Structure and semantic markup.
- **CSS3** - Styling, animations, responsive layout (media queries, flexbox, grid).
- **JavaScript (ES6+)** - DOM manipulation, form validation, navbar toggle, animations.

Tools & Platforms

- **Git & GitHub** - Version control and repository hosting.
- **GitHub Pages** - Free deployment platform.
- **VS Code** - Code editor for development.

5. Project Structure

```
```bash
```

```

```
├── index.html # Home Page
```

```
├── about.html # About Me
```

```
├── projects.html # Projects
```

```
├── skills.html # Skills
```

```
├── certifications.html # Certifications & Courses
```

```
├── contact.html # Contact Page
```

```
|
```

```
├── css/
```

```
| └── style.css # Stylesheet
```

```
|
```

```
├── js/
```

```
| └── script.js # JavaScript functionality
```

```
|
|— images/ # Profile and project images
|
|— README.md # Project summary
|— DOCUMENTATION.md # Detailed project documentation (this file)
...

```

---

## ## 6. Installation & Setup

### ### Option 1 – Run Locally

1. Clone the repository:

```
```bash
git clone https://github.com/your-username/portfolio.git
cd portfolio
...

```

2. Open `index.html` in your browser.

Option 2 – Live Deployment

The website is hosted on **GitHub Pages**:

...

<https://your-username.github.io/portfolio/>

...

7. How to Contribute

This is a personal portfolio project, but contributions can include:

- Bug fixes in code.
- Suggestions for better design or performance improvements.
- Adding dark/light theme toggle.

Fork the repo, create a feature branch, and submit a pull request.

8. Future Enhancements

- 🌙 **Dark/Light mode toggle** for accessibility.
- 📧 **Backend integration** for the contact form (Node.js, Firebase, or Formspree).
- 🌐 **Multilingual support** (English + Swahili).
- 📊 **Blog Section** to share insights on Data Analytics and AI.
- 🔒 **Enhanced Security** with input sanitization and reCAPTCHA for the contact form.

9. License

This project is licensed under the **MIT License** – free to use, modify, and distribute with attribution.
